

Parkson Corporation, Magnum Press, Model MP-60 3000, 1.5 meter, refurbished belt-filter press, fully contained skid/trailer mounted unit			
Specifications			
Item	Size	HP	Description
Top Belt	46'6" x 60" wide		#P-32-S
Bottom Belt	32'9" x 60 wide		
Water wash booster pumps	two 5 HP/ Price pumps	5	1.5" discharge, 2" suction
Effluent Discharge	4", Total 4		2 each side, threaded 4"
Collecting Conveyor	8" screw	3	rear, side delivery, stainless hopper
Polymer Make Down			Veloblend VM-5P-1200-E polymer activation and hydration
Polymer Conditioning Tank	120 gallon	1/3 HP	
Belt Tension/Steering			Pneumatic/Hydraulic
Air Compressor		5	Ingersoll Rand
Control Panel	460 Volt/provided transformer 110 Volt/W/Receptacle		New controls for all provided electrical equipment, with pneumatic cooler/ 100' electrical connection wire included with panel
Manuals	2 sets		Updated Operation and Maintenance Manuals, plus original Parkson manuals
Trailer and Skid specifications:			
	Skid Weight 27,000 lbs		
	Trailer Weight 11,000 lbs		
	Combined weight 38,000 lbs		
	Skid Length 32'		
	Trailer length 42'		
	Trailer width 8'		
	Skid height 8'8"		
	Trailer/Skid total height 11'10"		
Requirements	Electrical 90AMP/460 Volt		
	Potable Water 15GPM, 45 psi for polymer system (supplemental pressure pump available)		
	Belt wash water (non potable) 75GPM, 30 psi
